**OBSERVATION CHART** MR 4

Every year, governments pour billions into subsidies for their fishing fleets. But details of how these billions are spent remain locked in government files. With subsidies increasingly linked to overfishing, it's time for greater transparency and accountability.

**OBSERVATION CHART** MR 4

The ocean receives hundreds of millions of tonnes of toxic chemicals, sewage, industrial waste, agricultural runoff, and oil every year - 70 to 80 percent of it originating on land. 60 per cent of the population lives within 100km of the coastline. It's time for us to take responsibility and help save our seas.
